

Behind the Scenes of A Biology Laboratory

Nuo Yin

Experience

- Bring audience into the world of a scientist (interview with the experimenter)
- See the experimentation of how to extract alcohol from a certain type of tree skin

Target User

- Young people / Students
- People interested in science

Gaining

- Understand how experiments are done in a biology lab
- Understand what the life of a scientist is like
- Walk away with some interesting new knowledge
- Meaningful & Educational

Storytelling Techniques

360 close-ups

Plan of Action

- Already in contact with the Biology Dept. of Syracuse University
- Possible problems: camera cannot be put in the middle of experimental product

Future Career

- A cool documentary style 360 piece to have on my portfolio
- Improve interviewing skills
